John Jemail, professional photographer, advances the already famous Jemail legacy of photography. His great uncle, Jimmy Jemail, was the "legendary" first photographer/columnist for both the NEW YORK DAILY NEWS and SPORTS ILLUSTRATED, while his grandfather, Emil Jemail, was photographer/editor for the NEWPORT DAILY NEWS. Taking his cue from the 100 year tradition of his family passion, John attaches his own personal style to three photography specialties: portraiture, event, and creative. John strives to blend his talent with your vision in order to create images that are truly personal, interesting, and lasting. Of course, you can also hire Jemail for one-on-one tutoring or photography seminars as well.

Portraits

environmental portraits • senior portraits • child portraits • family portraits • classic portraits
